Lab: 03

Task 1: Create a storage account

1. Sign in to the Azure portal at <https://portal.azure.com>
2. From the All services blade, search for and select Storage accounts, and then click + Add, + Create, + New.
3. On the Basics tab of the Create storage account blade, fill in the following information.
4. Note - Remember to change the xxxxx so that it makes a unique Storage account name
5. Click Review + Create to review your storage account settings and allow Azure to validate the configuration.

The screenshot shows the Microsoft Azure portal interface. At the top, there's a navigation bar with the Microsoft Azure logo, a search bar, and various icons. The main content area is titled 'Create a storage account' and has several tabs: Basics, Advanced, Networking, Data protection, Encryption, Tags, and Review + create. The 'Basics' tab is selected. Below the tabs, there's a 'View automation template' link. Under the 'Basics' section, there's a table with the following information:

Subscription	Azure for Students
Resource group	RG_Lab3
Location	Central India
Storage account name	storagebisma2280108
Preferred storage type	
Performance	Standard
Replication	Locally-redundant storage (LRS)

6. Once validated, click Create. Wait for the notification that the account was successfully created.

7. From the Home page, search for and select Storage accounts and ensure your new storage account is listed.

Search resources, services, and docs (G+)
